

YOU ARE INVITED TO

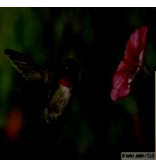

The Premier Pollinator's Palette Garden Tour

WHEN: Saturday Aug. 5, 2017 1-5 pm. Rain or shine!

WHY: Exceptionally rare opportunity to view over 160 varieties of beautiful native pollinator plants in a cultivated garden setting. Ideas to create your own healthy space on a small lot that is both beautiful and supports vital pollinators, birds and the environment. Lakeside or inland, less work, no chemicals, perennials, shrubs, vines, trees, fruit, nuts...!

3 GARDEN LOCATIONS featuring native plants to support pollinators and birds in a healthy environment. Pollinators are required for every 3rd bite of our food. 90% of plants require animals for pollination. Insects are a vital food source for 95% of our birds. Habitat loss a serious threat.

START: 2916 King Street, Delavan, WI, 2 more gardens nearby, Delmar Beach and Elegant Lakeshore Home!

SEE WHAT'S DIFFERENT ABOUT THESE GARDENS!

FREE RESOURCES: Native plants, plant lists, brochures, book lists, posters

BENEFIT: Optional \$5 donation will benefit The Xerces Society and Pollinator's Partnership. Both are 4 Star International charities.
